

INTERVIEW SUMMARY

Applicant sincerely thanks Examiner Peeso for conducting a telephonic interview with Applicant's representative, David W. Foster, on May 23, 2008.

During the interview, Applicant's representative respectfully traversed the Office's rejections under 35 U.S.C. § 102(e). For instance, Applicant's representative respectfully submitted that the cited reference ("Lenstra") fails to disclose or suggest "determining pairings for cryptographically processing said information *using a parabola* associated with said curve" as recited in independent claim 1 (emphasis added).

Applicant's representative understood Examiner Peeso to agree that the claims are indeed allowable. Applicant's representative sincerely thanks Examiner Peeso for this indication.
